

about us

Acoustic Dimensions is an interdisciplinary team of consultants and designers with offices in Dallas, New York, San Diego and the United Kingdom.

Our team has a passion for venues where people come together to share an experience. Our portfolio includes performing arts, sports and entertainment, education, corporate, hospitality and worship venues.

We have a deep commitment to innovation as evidenced in our development of design tools—many of which we share at acousticdimensions.com. We also have a commitment to sustainability—over 70% of our design team members are LEED Accredited Professionals.

Since 1991, our holistic approach has proven successful in over 1,000 projects worldwide.
